THE GAME CHANGER

Until now, sublimation has been limited to 100% Polyester. With the revolutionary FOREVER sublimation transfer media removes the sublimation limitations - Printing sublimation inks onto cotton is now possible.

Each of our No-Cut sublimation transfers have been developed to serve a different purpose - for white, light or dark colored cotton, polyester, mixed fabrics and more. With and without the glitter option.

TRANSFER SOLUTIONS

 - Multi-color designs
 - Print & Cut solution
 - Extremely elastic
-

SUBLI-DELUXE

- Polyester
 - Brilliant colors
 - Photo-realistic
 - Stackable (Instantly dry ink)
-

SUBLIMATION MEETS COTTON

If you're a sublimator, you've probably heard that sublimation inks will not bond to cotton. Truthfully, that hasn't changed. Sublimation chemically bonds to polyester and polymers, not cotton; however, that doesn't mean you can't apply it to cotton.

With the FOREVER Subli (No-Cut) transfer papers, you can transfer vibrant sublimation inks on to light and dark cotton textiles.

These new products will open doors to many new fascinating sublimation applications, which will help maximize profit potential for your decorated-apparel business.

SUBLI-LIGHT (NO-CUT)

With Subli-Light (No-Cut), you can finally transfer vibrant sublimation inks to light and white cotton textiles - without cutting and weeding.

In addition, designs can be finished using the Subli-Finishing-Foil and one of our 50+ hot stamping foils.

ADVANTAGES

- 1-Paper solution
- For cotton materials
- Quick & easy application
- No background
- Stable wash resistance
- Soft feel
- High elasticity
- Brilliant colors & intense black
- Suitable for printers with sublimation inks

APPLICATIONS & MATERIALS

- White & Light Cotton
- Mixed fabrics
- Light Polyester
- Light Silk
- Wood

FORMAT

- DIN A4/8.5x11"
- DIN A3/11x17"
- 43cm x 25m/17" x 82ft

ROCKING THE METALLIC LOOK

One of the hottest trends to hit the fashion runways is metallic clothing. When styled right, wearing metallic clothing and accessories can add a taste of glamour without coming off too flashy.

Designers around the world are scrambling for more ways to customize textiles and accessories. Subli-Finishing Foil is the best solution for printing sublimation inks on to dark and light cotton textiles.

SUBLI-FINISHING FOIL

Creating Metallic designs with a sublimation printer is now a possibility. With colors like Kiwi Green, Gold Bubbles and Confetti Violet, metallic colors are the perfect solution for special events.

With Subli-Light (No-Cut), Subli Finishing Foil and one of over 50 metallic hot stamping foils, your customers will be mesmerised.

ADVANTAGES

- Easy to use
- No background
- Stable wash resistance
- Very soft touch
- High elasticity
- For cotton materials
- Use only in combination with FOREVER Hot Stamping Foils
- Quick & easy application
- Suitable for printers with sublimation inks

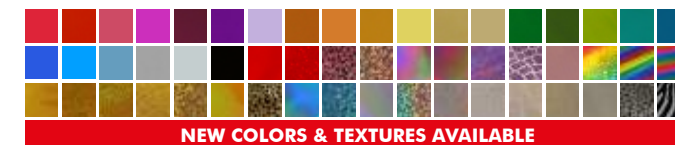

APPLICATIONS & MATERIALS

- Dark & light colored cotton & blended fabrics
- Light colored polyester
- Wood

FORMAT

- DIN A4/8.5x11"
- DIN A3/11x17"

50+ HOT STAMPING FOILS

RAZZLE-DAZZLE GLITTER EFFECTS

Glitter, in its many forms, can be found on runways, red-carpetworthy gowns and streets. Metallic shiny surfaces are continuing to be eternally alluring and pushing designers and garment manufacturers to experiment with different techniques to achieve the glitter effect.

Subli-Light (No-Cut) Glitter bridges the gap between sublimation printers, fashion designers and textile printers who customize white & light textiles.

SUBLI-LIGHT (NO-CUT) GLITTER

Offer your customers incredible multi-color glitter designs for white and light colored cotton textiles. Both fine and large-meshed.

You can also save yourself the hassle of cutting and weeding your designs - as only the ink is transferred, leaving behind, no background.

ADVANTAGES

- 1-Paper solution
- Easy & fast application
- No background
- Stable wash resistance
- Soft touch
- High elasticity
- Brilliant colors & true black
- High glitter effects
- Suitable for printers with sublimation ink

APPLICATIONS & MATERIALS

- White & light cotton
- Mixed fabrics
- Light polyester
- Light silk
- Wood

FORMAT

- DIN A4/8.5x11"
- DIN A3/11x17"
- 43cm x 25m/17" x 82ft

SUBLIMATION GLITTER ON DARK COTTON

Ignite a firework of glitter effects by printing our special Subli-Dark (No-Cut) Glitter on light or dark cotton, in fine or coarse fabric. This modern look makes customers feel elegant and extravagant at the same time.

SUBLI-DARK (NO-CUT) GLITTER

With FOREVER Subli-Dark (No-Cut) Glitter, it is finally possible to transfer full-tone glitter colors to Light & Dark colored cotton textiles. For both fine and large-meshed textiles.

You can also save yourself the hassle of cutting and weeding your designs - as only the ink is transferred, leaving behind, no background.

ADVANTAGES

- 1-Paper solution
- Easy & fast application
- No background
- Stable wash resistance
- Soft touch
- Stretchable
- High glitter effects
- Suitable for printers with Sublimation ink

APPLICATIONS & MATERIALS

- Light & dark cotton textiles
- Wood

FORMAT

- DIN A4/8.5x11"
- DIN A3/11x17"
- 43cm x 25m/17" x 82ft

PHOTO-REALISTIC IMAGE QUALITY

Convince your customers with a photo-realistic design language! Subli-Flex 202 is a product that, in addition to printing detailed designs, stands for high washability.

This makes it particularly easy to print letters, numbers and logos on textiles that can be washed more than 50 times without the image quality deteriorating.

SUBLI-FLEX 202

With Subli-Flex 202 you can print on light and dark colored textiles made of 100% cotton, combining strong sublimation colors with the extremely high washability and stretchability of ordinary flex.

The innovative transfer process is particularly suitable for enhancing textiles with letters, numbers and logos.

ADVANTAGES

- Print & Cut solution
- Photo-realistic image quality with high-gloss or matte finishes
- Extremely elastic material
- Stable wash resistance
- Brilliant colors
- Reversed printing - no transfer film required
- Suitable for printers with sublimation inks

APPLICATIONS & MATERIALS

- Light & dark cotton
- White polyester
- Denim

FORMAT

- DIN A4/8.5x11"
- DIN A3/11x17"
- 42cm x 25m/17" x 82ft

THE FLOCK EFFECT

Adding a tactile and eye-catching quality to your garments has never been easier and more cost-effective.

Flock printing creates a touchable design that shows off on an air of professionalism and style - helping your business grow and expand by commanding a higher prices.

SUBLI-FLOCK

You can either press directly onto the textile or by transfer with sublimation paper. The dense flocking gives you a print result of breathtaking colors.

The flock material is ideally suited for inkjet printers with sublimation inks.

ADVANTAGES

- Print & Cut solution
- Excellent opacity
- Direct printing or via sublimation paper
- Brilliant colors
- Material thickness 0.5 mm

APPLICATIONS & MATERIALS

- Light & dark cotton
- Blended fabric
- Polyester

FORMAT

- 50cm x 5m
- 50cm x 10m
- 50cm x 25m

PERSONALISATION & CUSTOMIZATION

When transferred to a polyester garment, Subli-Deluxe designs become part of the fabric fibers themselves, instead of merely resting on top of the garment surface.

This single benefit results in no worries of the print scraping off or cracking over time. The second main advantage is the ability to use unlimited colors and have no image restrictions. This means that you can have complex gradients and photo quality images with low minimum run requirements and no costly set-up fees.

SUBLI-DELUXE

Within a very short time, you can print designs on polyester or polyester-coated materials with this inexpensive and fast-drying sublimation paper.

ADVANTAGES

- Extremely easy to use
- Photo-realistic quality
- Perfect ink transfer
- Brilliant colors
- Instant dry
- Stackable
- Suitable for printers with sublimation inks

APPLICATIONS & MATERIALS

- Polyester
- Polyester coated materials
- Mirrors
- Plates
- Tiles

FORMAT

- DIN A4
- DIN A3
- 43cm x 100m
- 61cm x 100m
- 91cm x 100m
